Education

Brigham Young University - Idaho

B.S in Computer Information Technology

Graduating July 2015

Rexburg, ID

- GPA 3.78
- Full Academic Scholarship

Michigan Technological University

General Studies

Sept 2008 - May 2010

Houghton, MI

Experience

Bailey's Logistic Services

Software Developer – Intern

Aug 2014 - Dec 2014

Denver, CO

- Maintained a PHP Web Application that served as the company's main management system by adding a system for independent contractors, completely redesigning the whole front-end design, and modifying diverse features across the system.
- Supported a complex ASP.NET C# MVC web-application that provided routing services for more than 700 appliances-delivery per day by developing a call reporting system, enhancing the current notification system, fixing complex features, and deploying hotfixes.
- Deployed code from development to testing and then to production using Git.
- Followed the Agile-Scrum methodology in a team to gather business user requirements, design UML diagrams, test, and to develop a potentially shippable product.

Popeye's Chicken and Biscuits

Cashier and Preparatory

Aug 2013 - Nov 2013

Rockville, MD

- Collaborated in a team of seven to provide quality food services in the most efficient manner which increased customer traffic and revenue to the local organization.
- Spread a self-motivation spirit to the team by taking the initiative to help others complete their responsibilities and by volunteering to undertake extra tasks.

Shirley's Handyman Services

Handyman's helper

Oct 2012 - Dec 2012

Poolesville, MD

- Learned project management skills such as producing *quality* services by closely working with the project manager.
- Worked hard to complete projects on time such as planting ceramic tiles, concreting a patio, and replacing old window's screens in which gave quality results and thus pleased the customer.

The Church of Jesus Christ of Latter-day Saints

Full - time Volunteer Representative

Sept 2010 – Sept 2012

Viña del Mar, Chile

- Demonstrated problem-solving techniques by analyzing team statistics and finding solutions which allowed monthly goals to be met.
- Showed interpersonal skills by requesting information and providing it to management levels.
- Increased efficiency and productivity in secretarial duties by creating complex Excel worksheets and re-organizing the infrastructure.
- Multitasked in updating online information, updating records in a custom database, receiving calls, ordering supplies, creating reports and presentations, requesting data, and attending incidents.
